No further fees are believed due to support the filing of this paper. If an additional fee is due, please charge the same to deposit account 50-0573, and credit any excess to the same account.

Restriction has been required to one of the following inventions:

- Group I. Claims 1-11, drawn to a peptide;
- Group II. Claims 12-27, in part drawn to a method of treatment of a neurodegenerative disease; and
- Group III. Claims 28-35, in part drawn to a method of producing a cognitive enhancement.

Furthermore, in addition to the election of one of the above groups, further restriction is required to a single polypeptide.

Applicants elect the claims of Group I, i.e., claims 1-11, drawn to a peptide. It is noted that this group of claims embraces pharmaceutical compositions comprising polypeptides, in addition to polypeptides per say.

In response to the request for election of a single polypeptide, applicants elect the peptide Arg-Glu-Arg (SEQ ID NO: 9).

Respectfully submitted

Radmila Mileusnic, *et al*
